

BECOME AN EMBER DEFENDER

WE NEED YOUR HELP!

Become an
EMBER DEFENDER
by following the steps in this book
to harden your home and make
it safe from embers.

An ember is a piece of burning material from a fire. An ember can be carried by the wind and land on and around your home, starting a fire/igniting your home.

WHERE EMBERS LAND, MAKE A STAND!

HARDEN THE HOME!

Color 9 important parts of the home that we need to harden.

1: vegetation

2: rock

3: window

4: siding

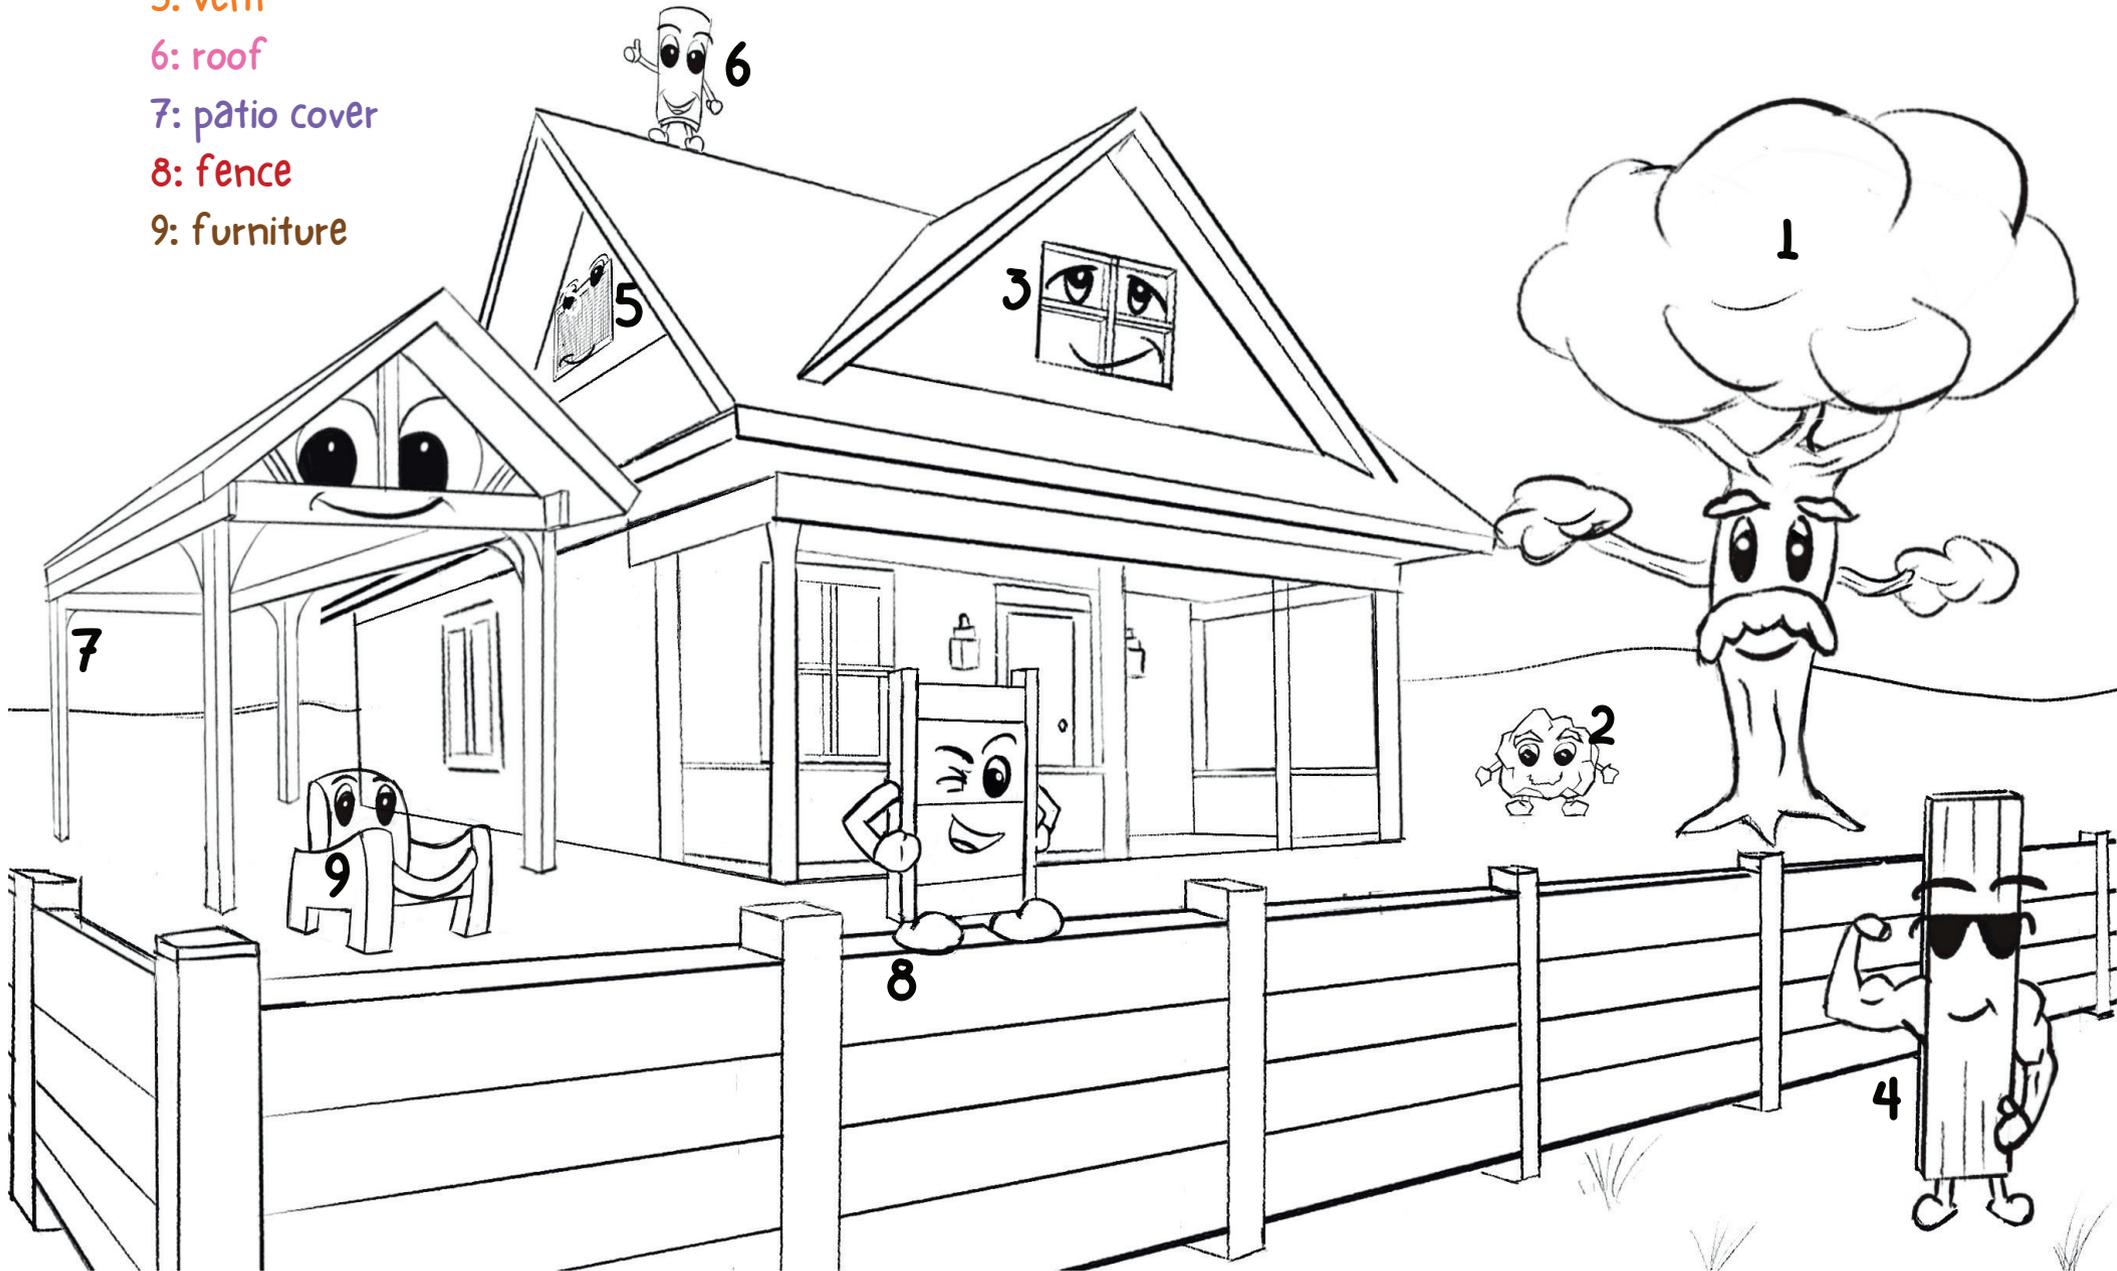

5: vent

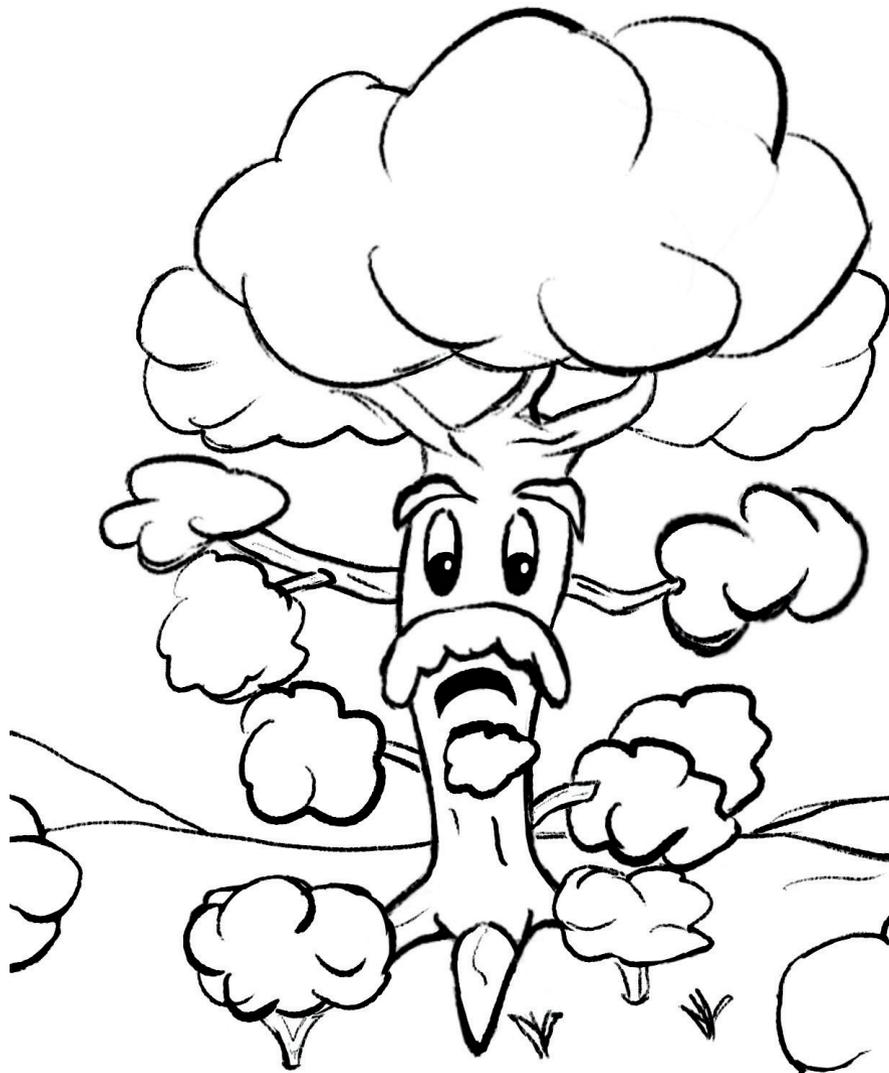

6: roof

7: patio cover

8: fence

9: furniture

VEGETATION

Make sure to keep your plants and trees trimmed and healthy.

ROCK

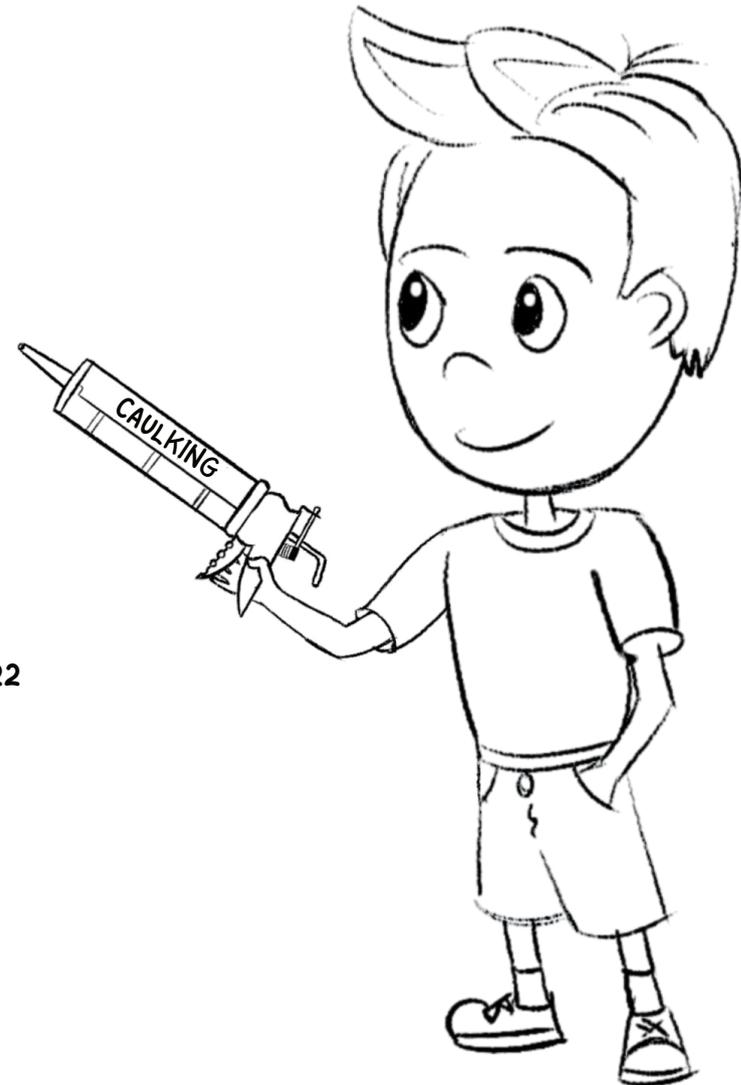

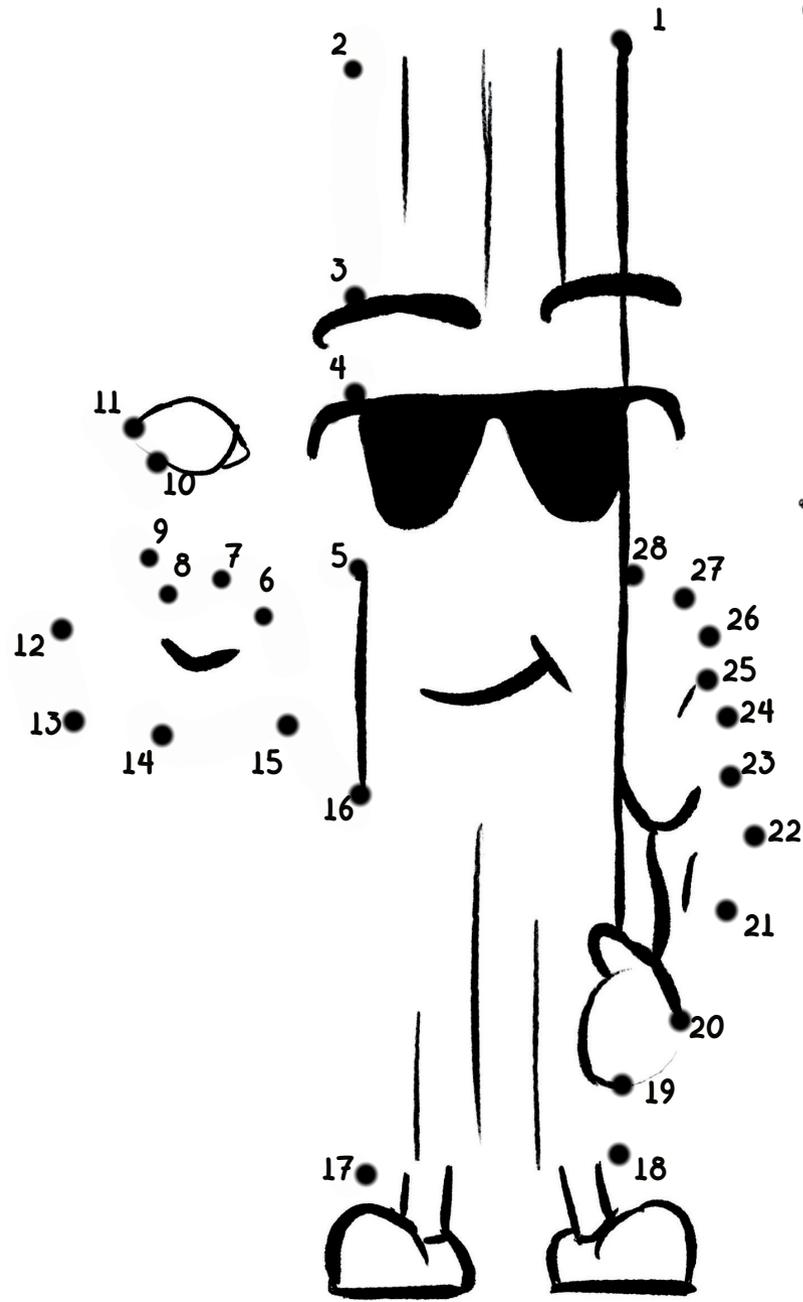

Replace mulch with rock, around your house 5 feet towards the street.

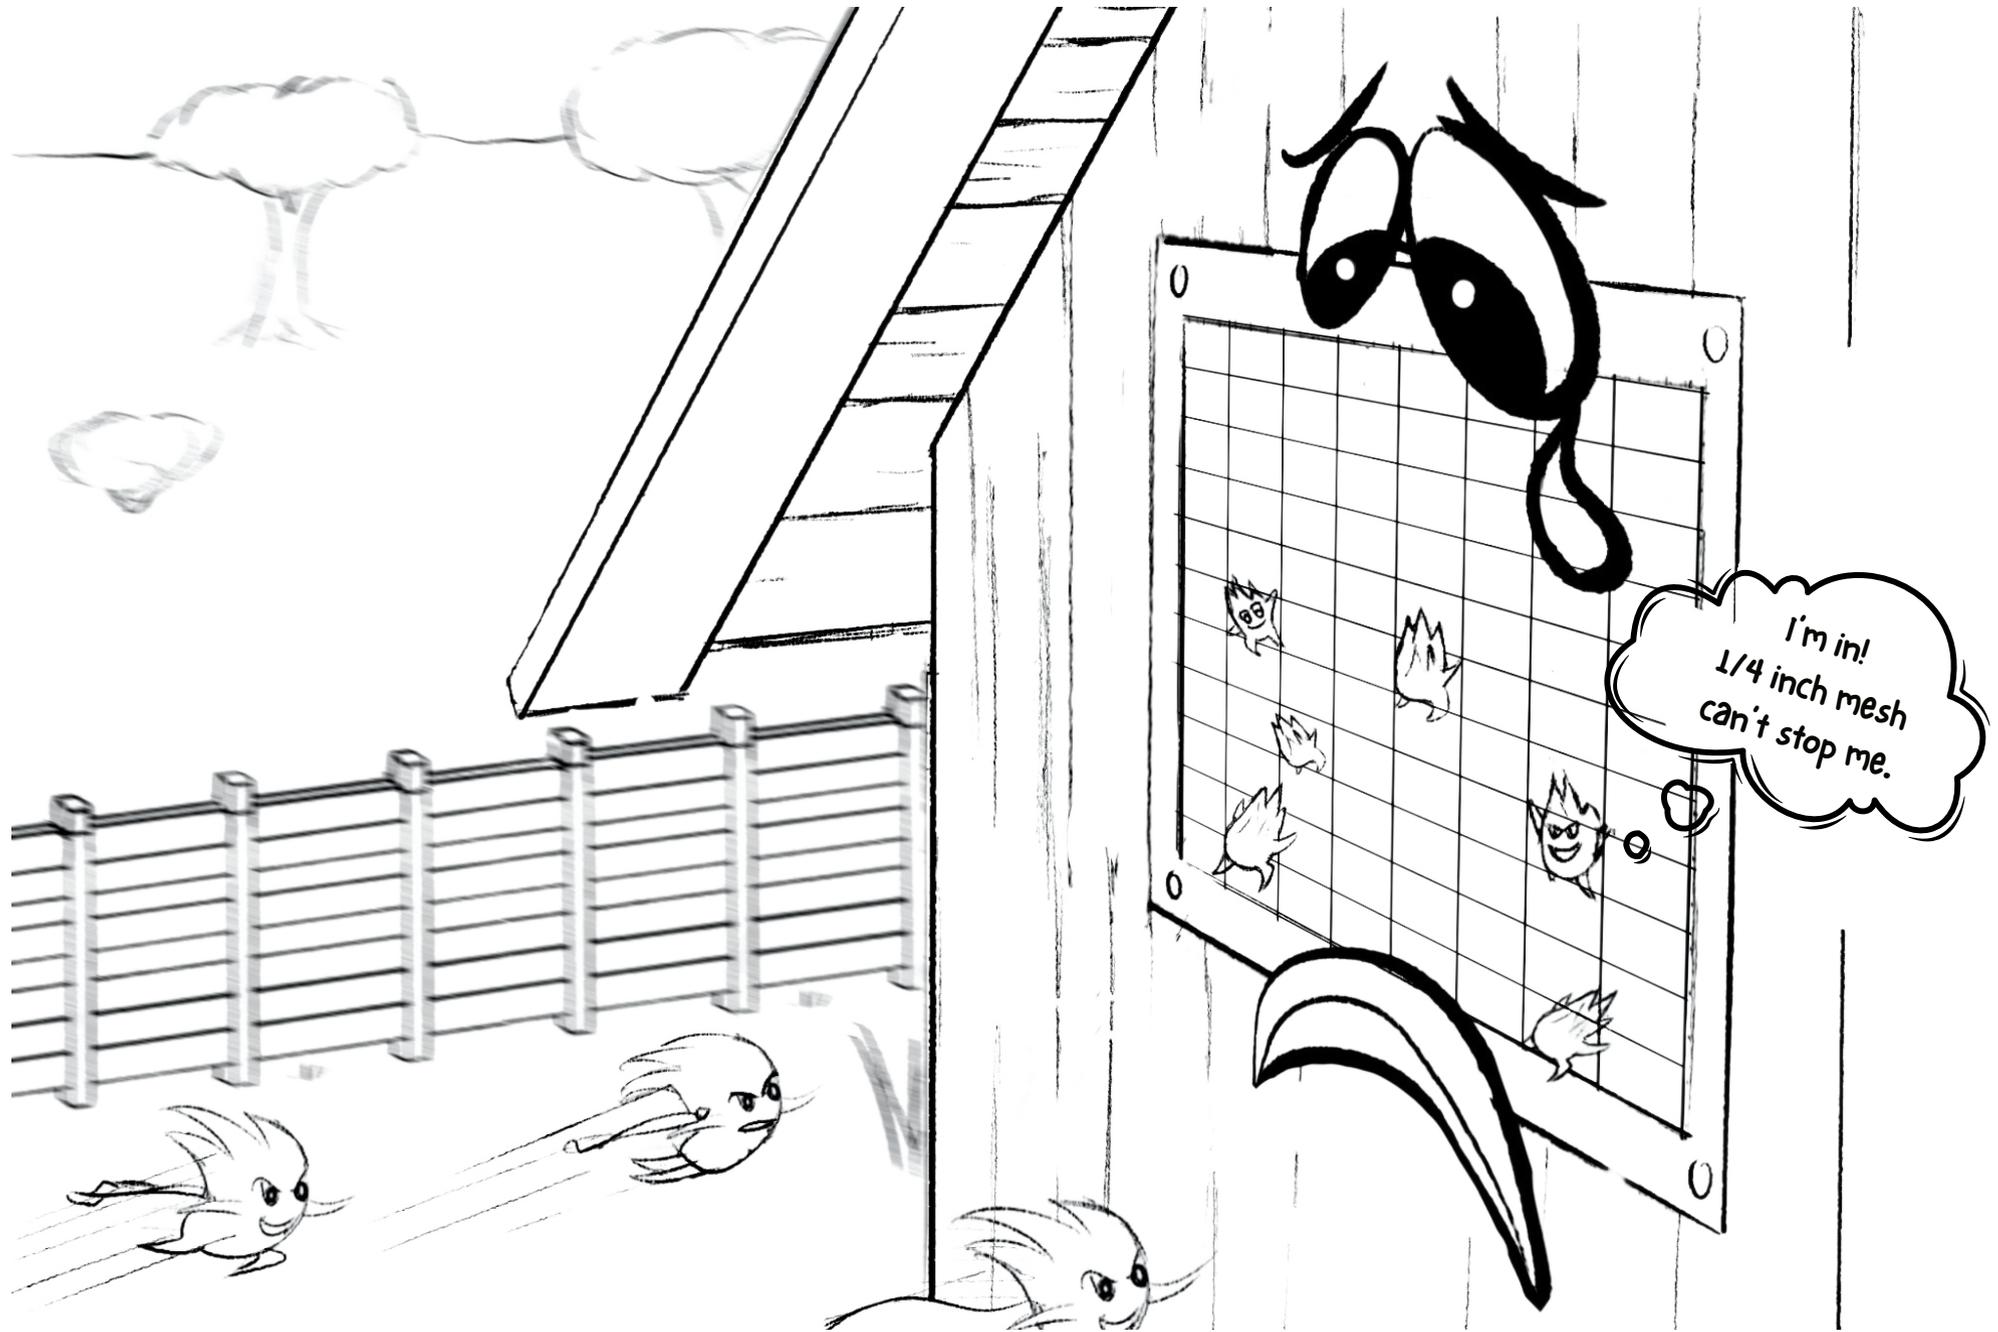

WINDOWS

Windows that are tempered and dual pane will conserve energy and keep the pain away.

Connect the dots to help your siding grow strong.

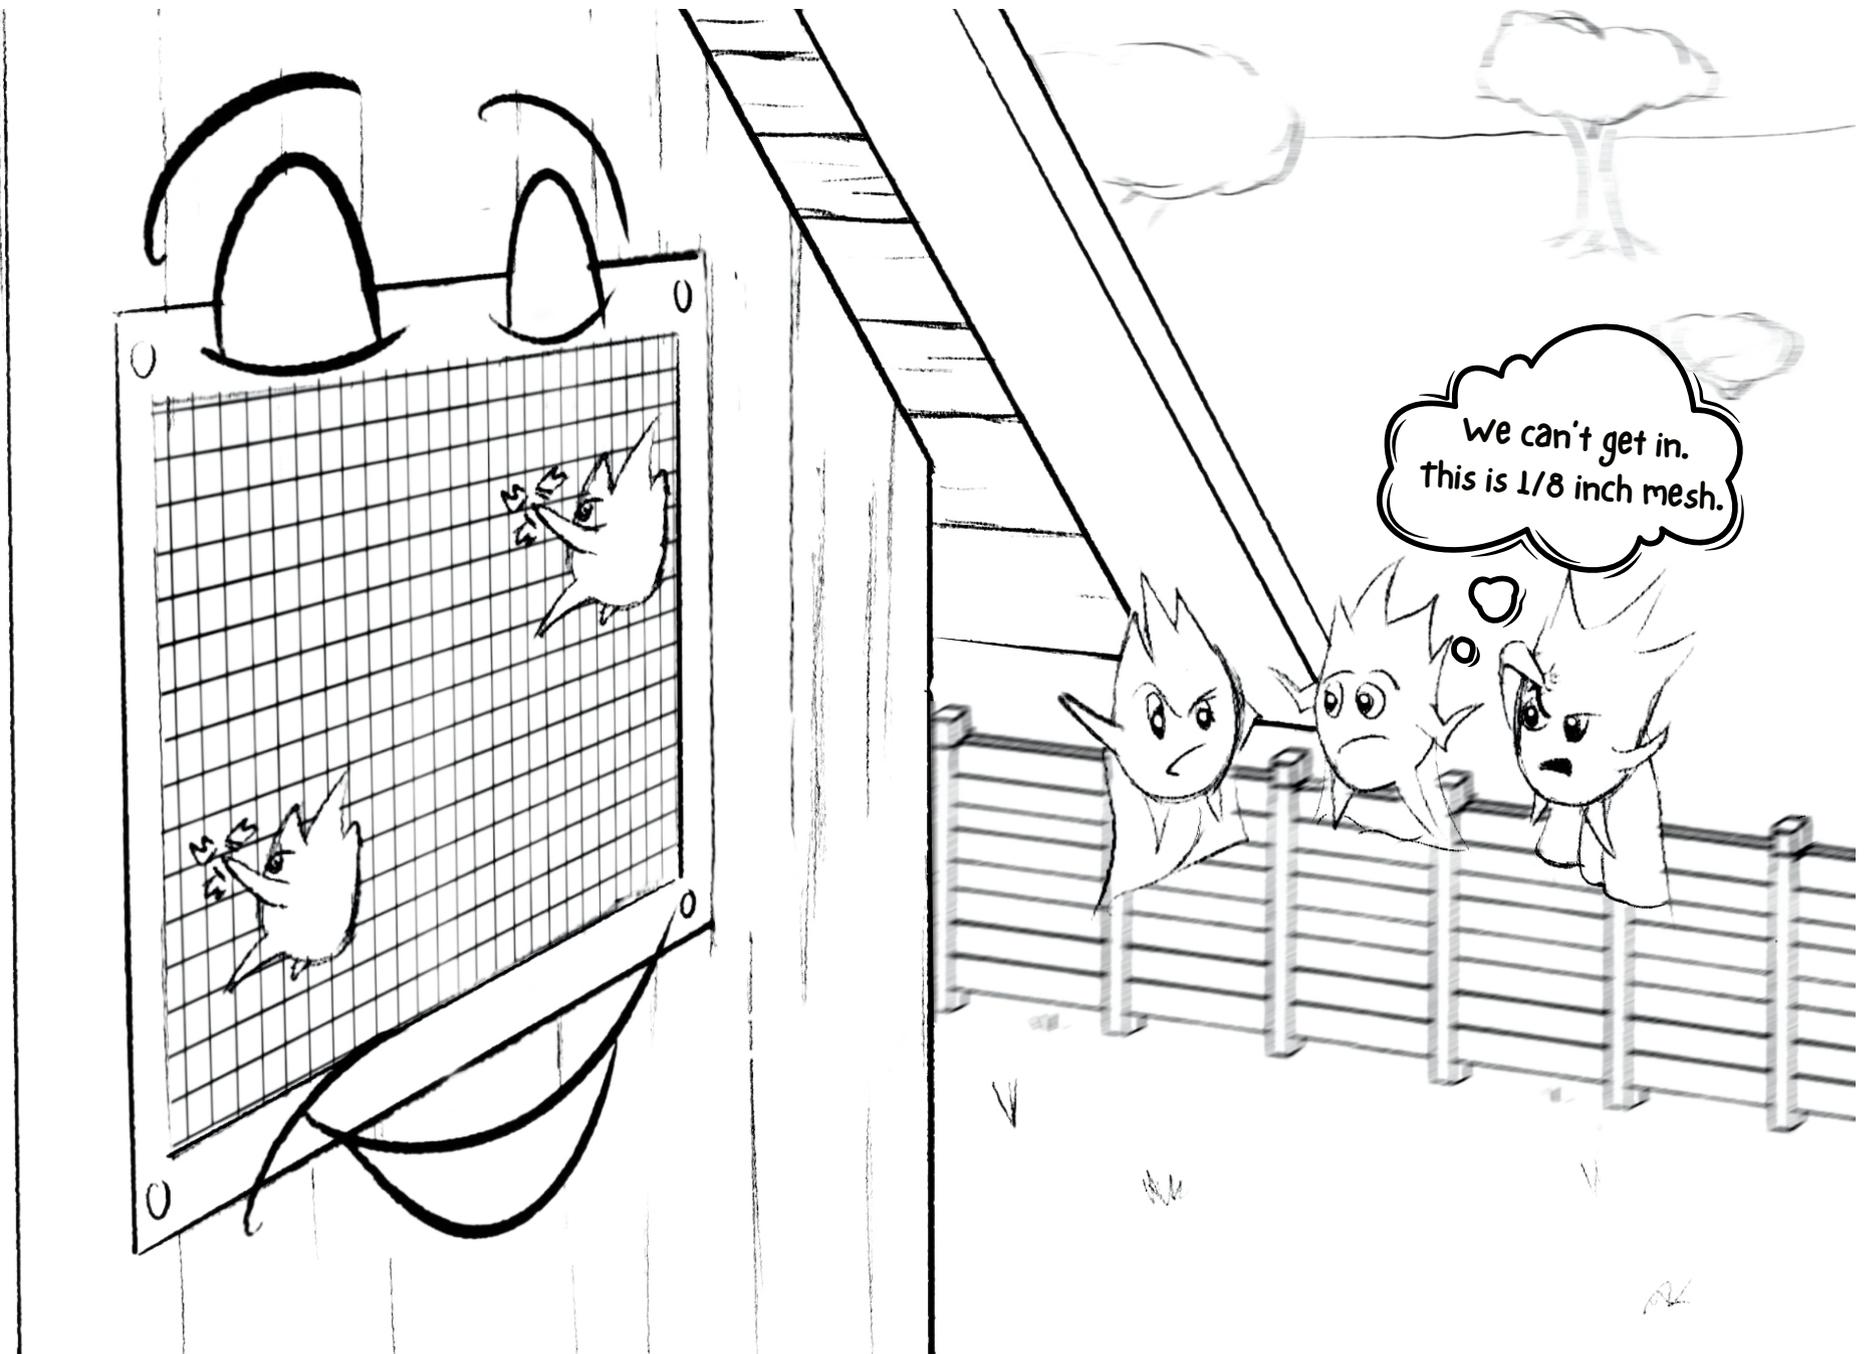

SIDING Filling the gaps and cracks helps siding stay strong when embers attack.

VENTS

Cover the vents with a 1/8 inch metal mesh screen ...

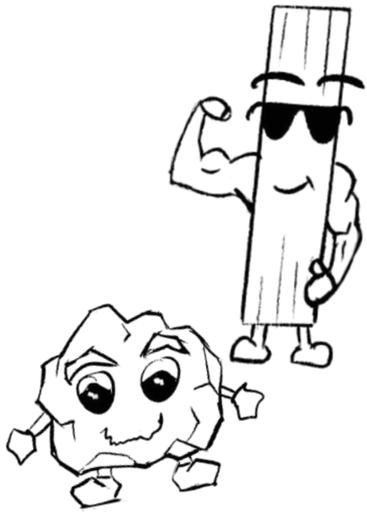

...and remember to keep them clean.

VENTS

ROOF

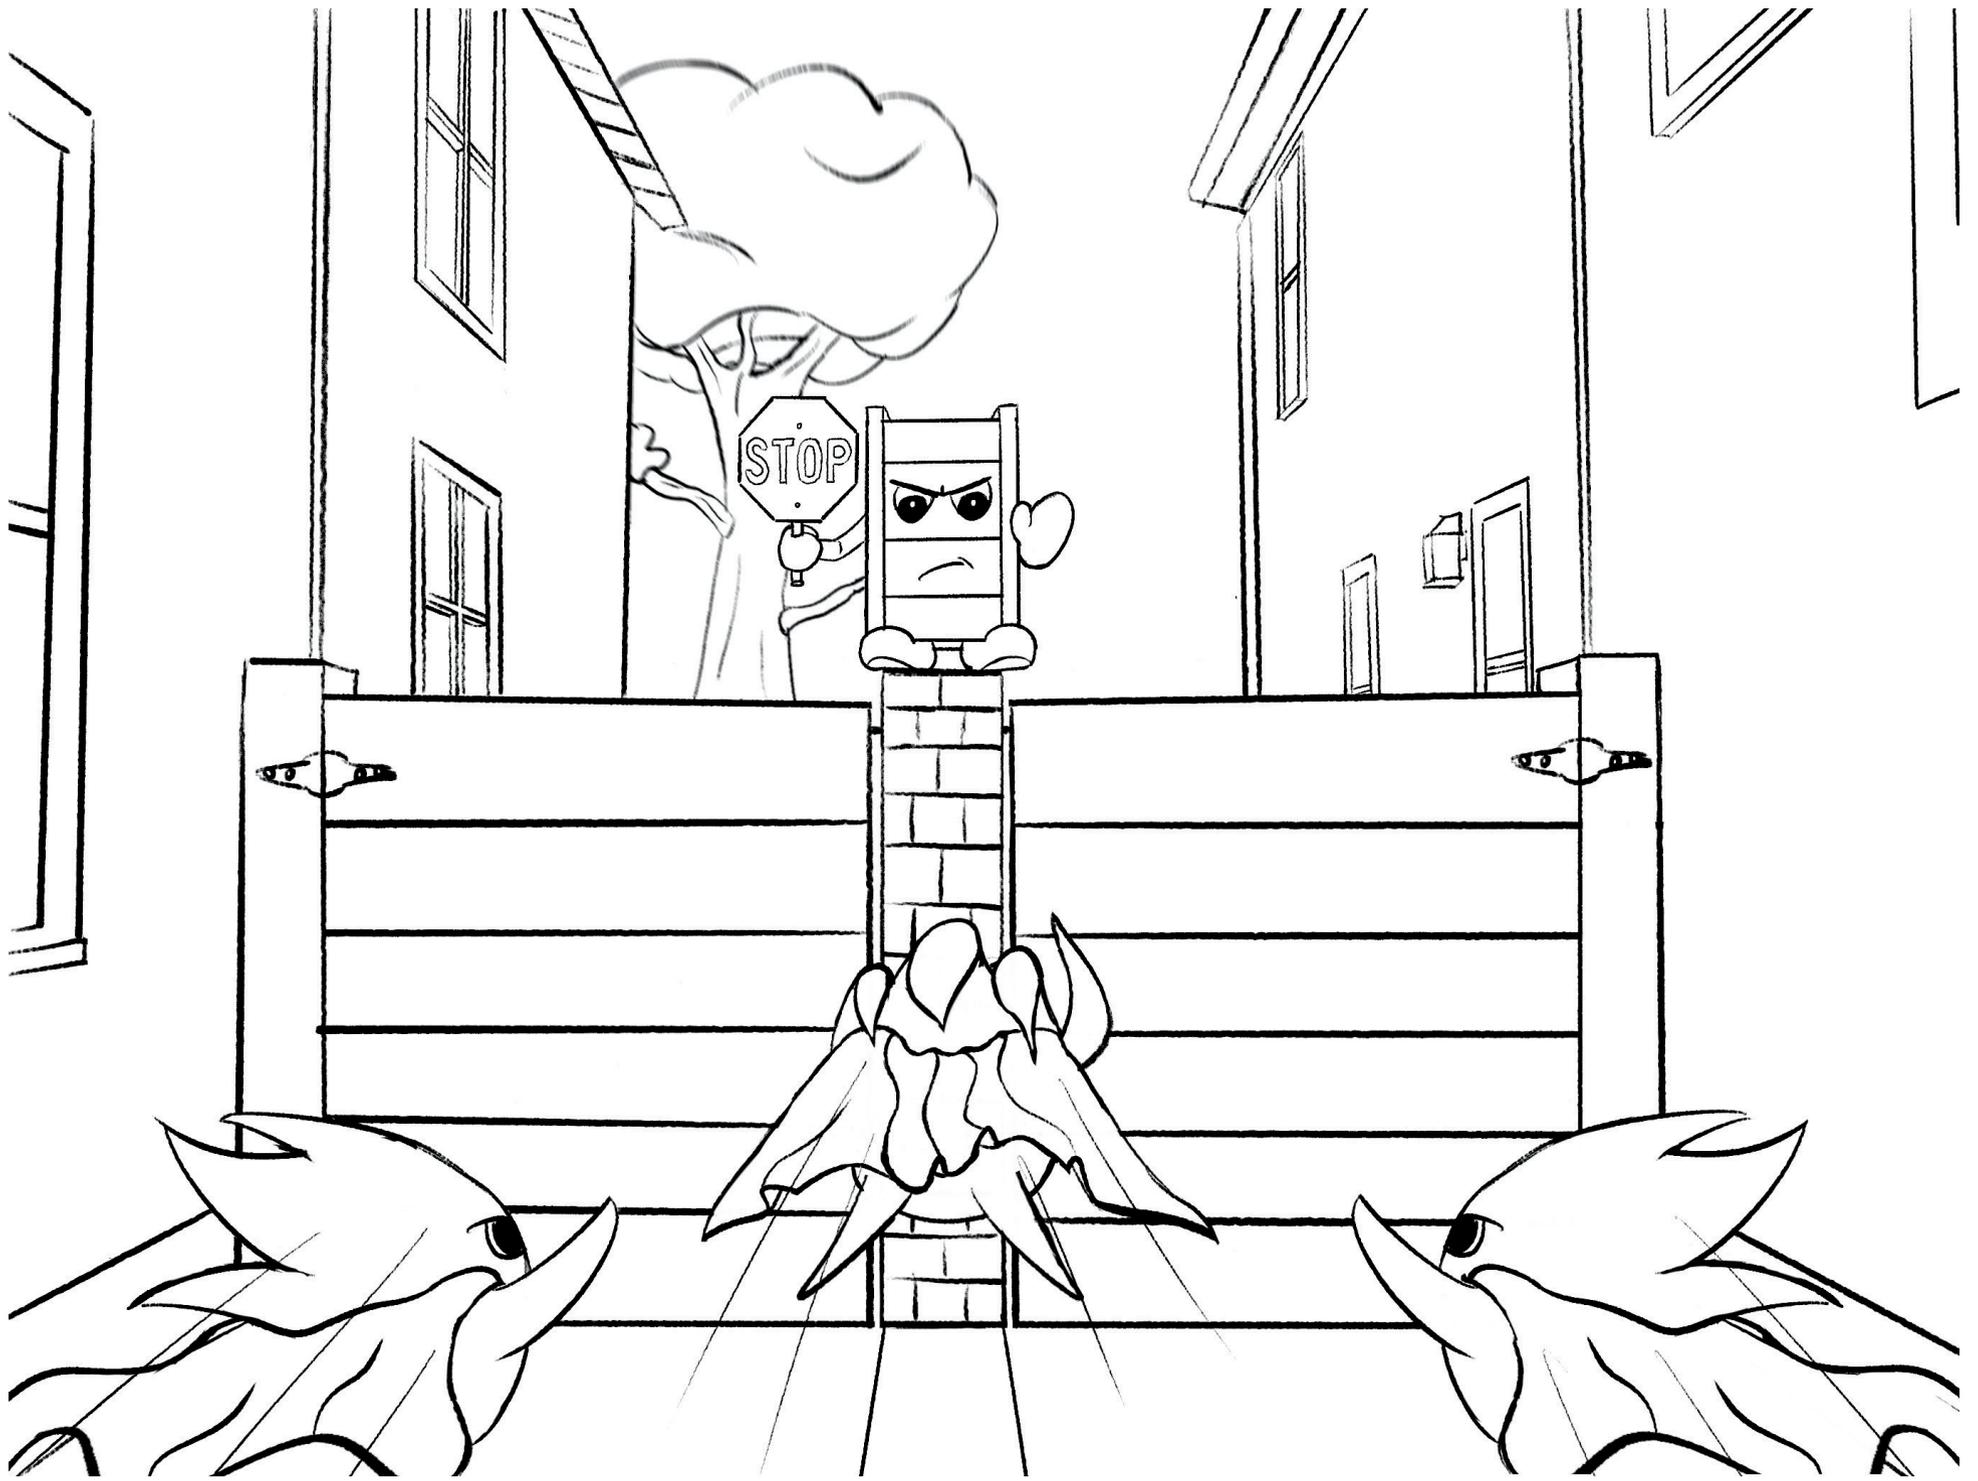

A roof covering that is Class A will help your home stand another day.

Connect the dots to help build your patio cover.

PATIO COVER

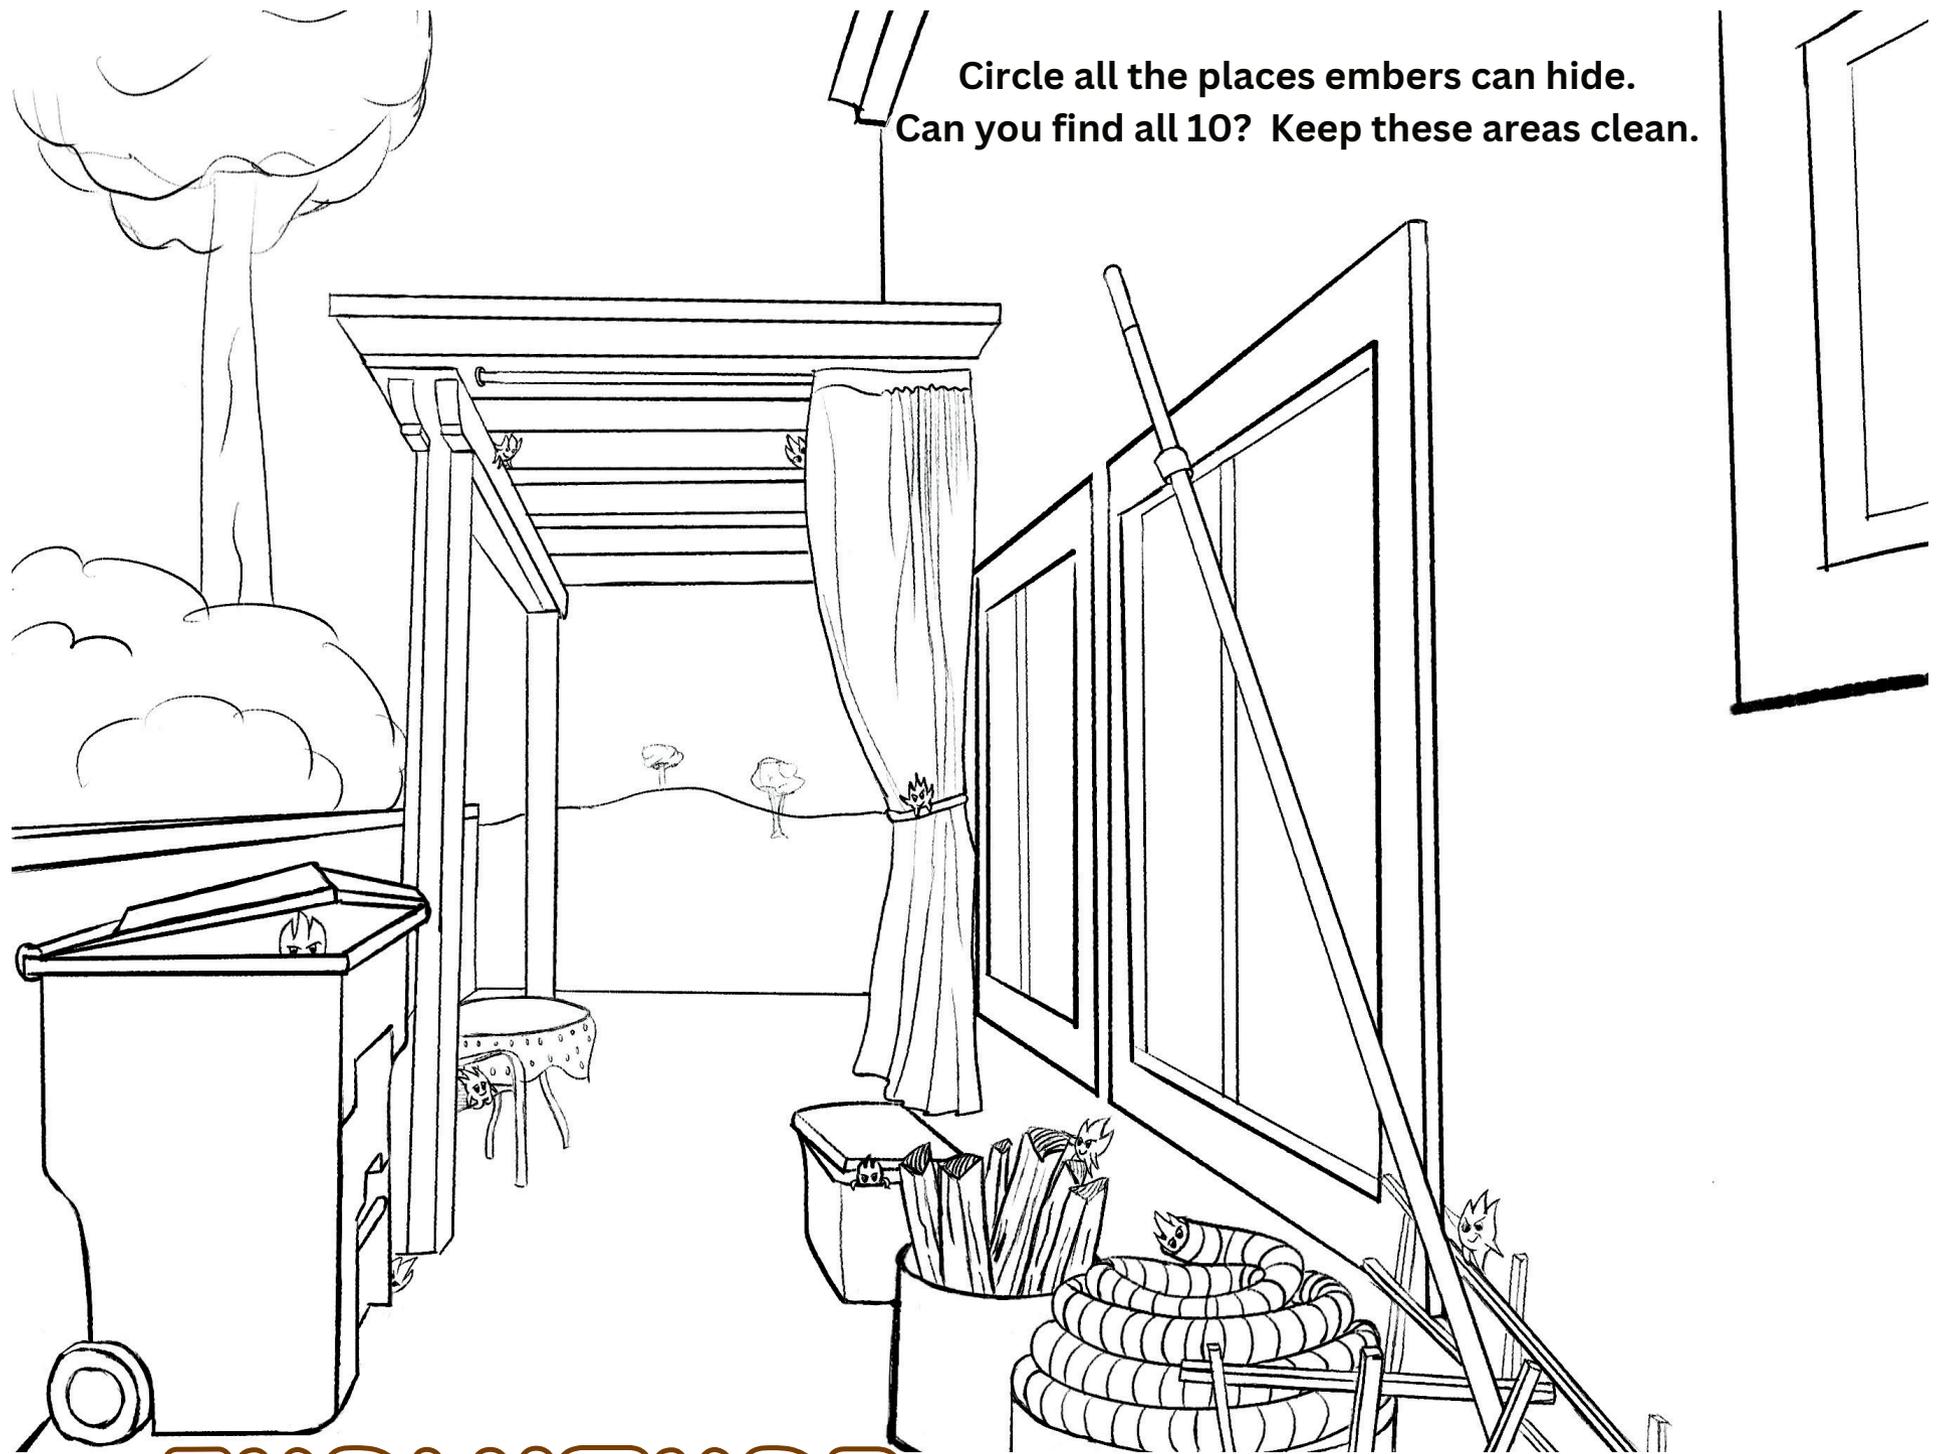

A metal patio cover will hold up like no other.
(and it is ignition resistant)

FENCE

A metal fence close to your home will stop a fire that wants to roam.

Circle all the places embers can hide.
Can you find all 10? Keep these areas clean.

FURNITURE

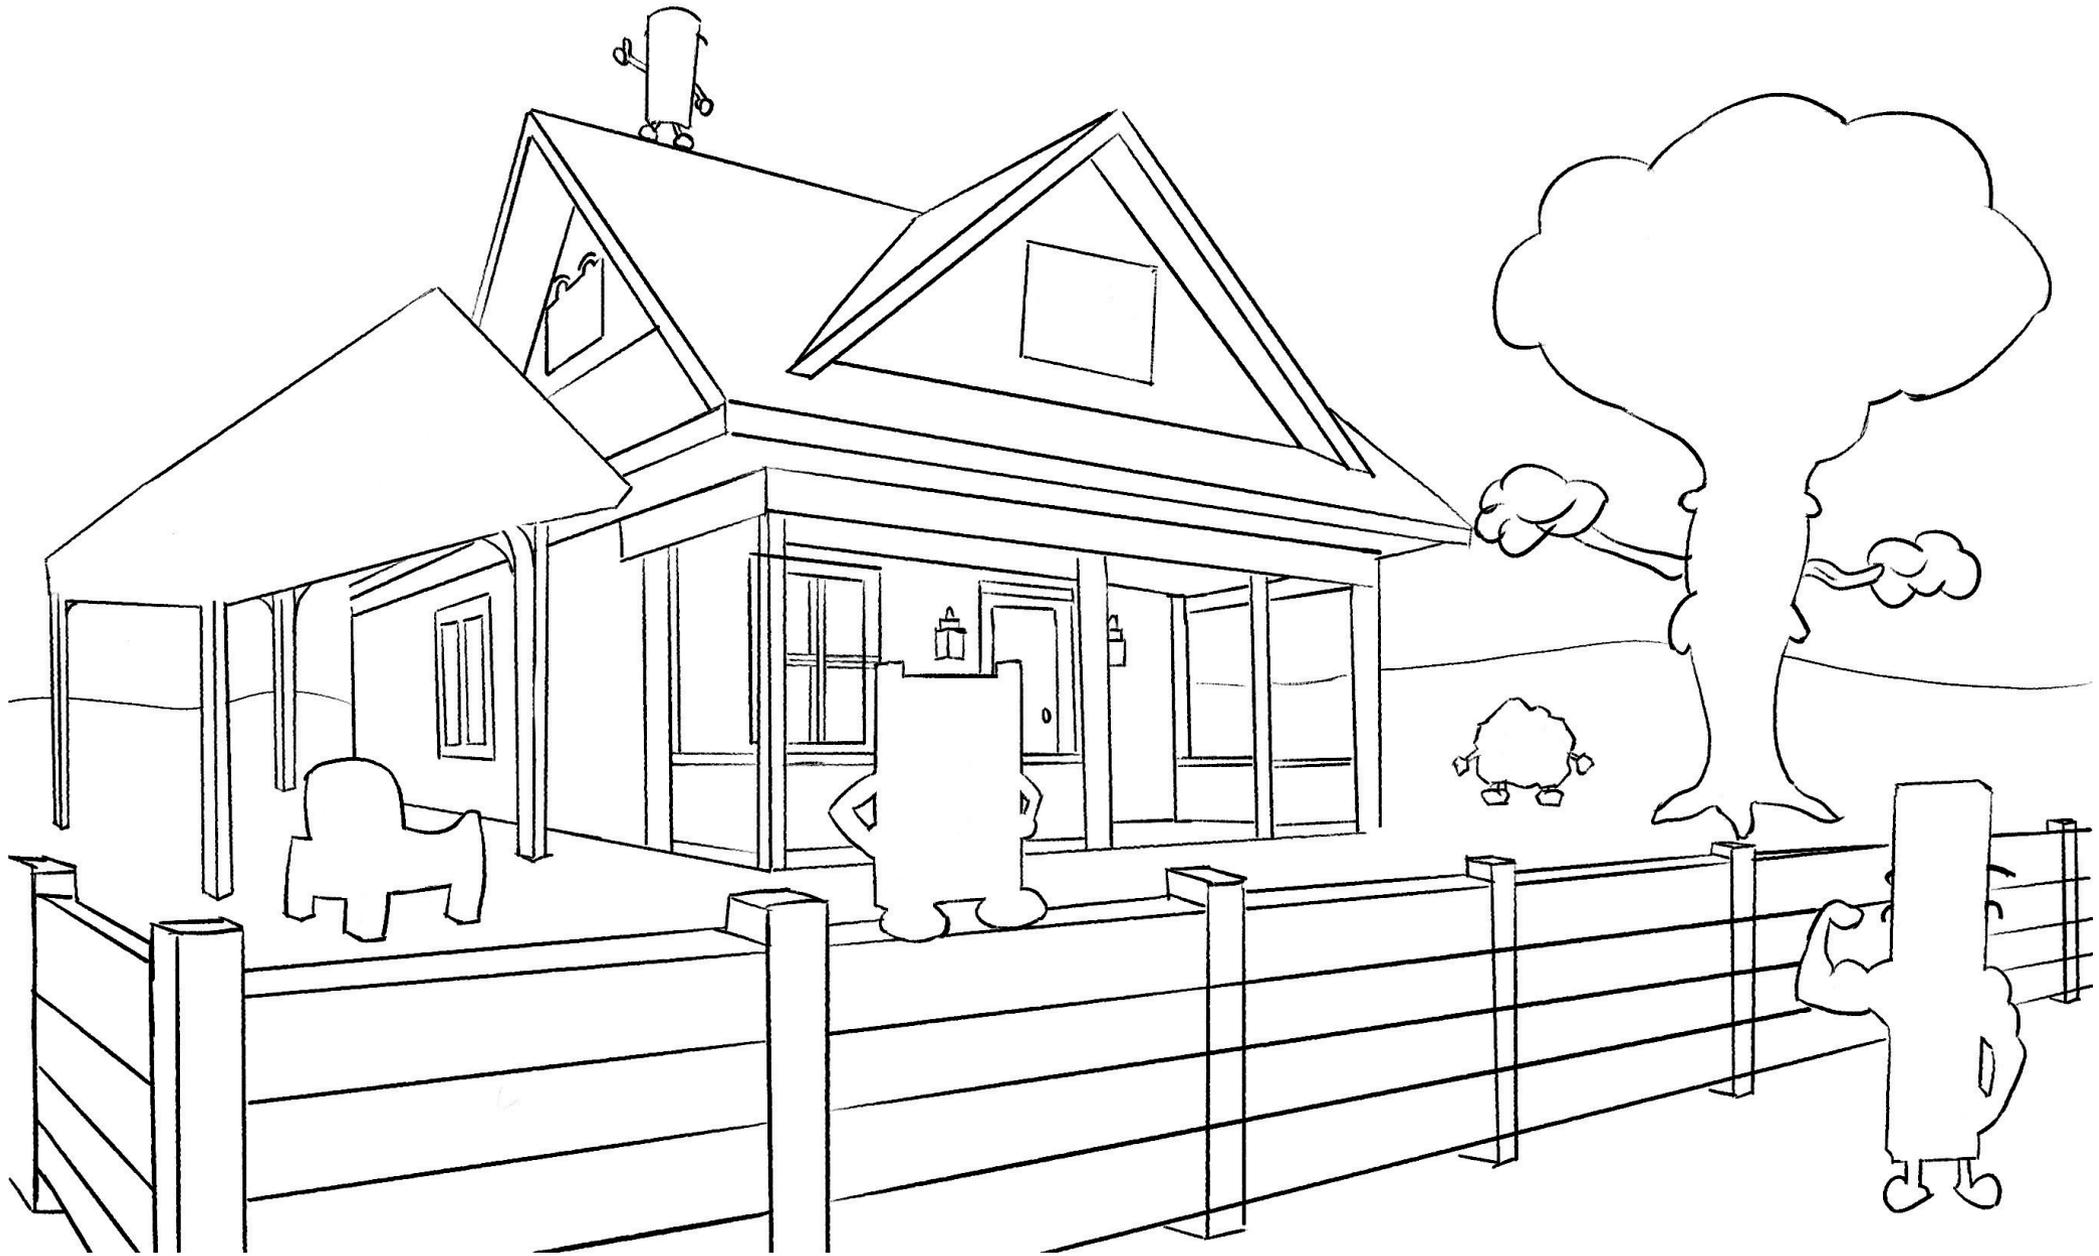

Feel less heat when you keep five feet.

HOORAY! YOU DID IT!
YOU HELPED HARDEN YOUR HOME!

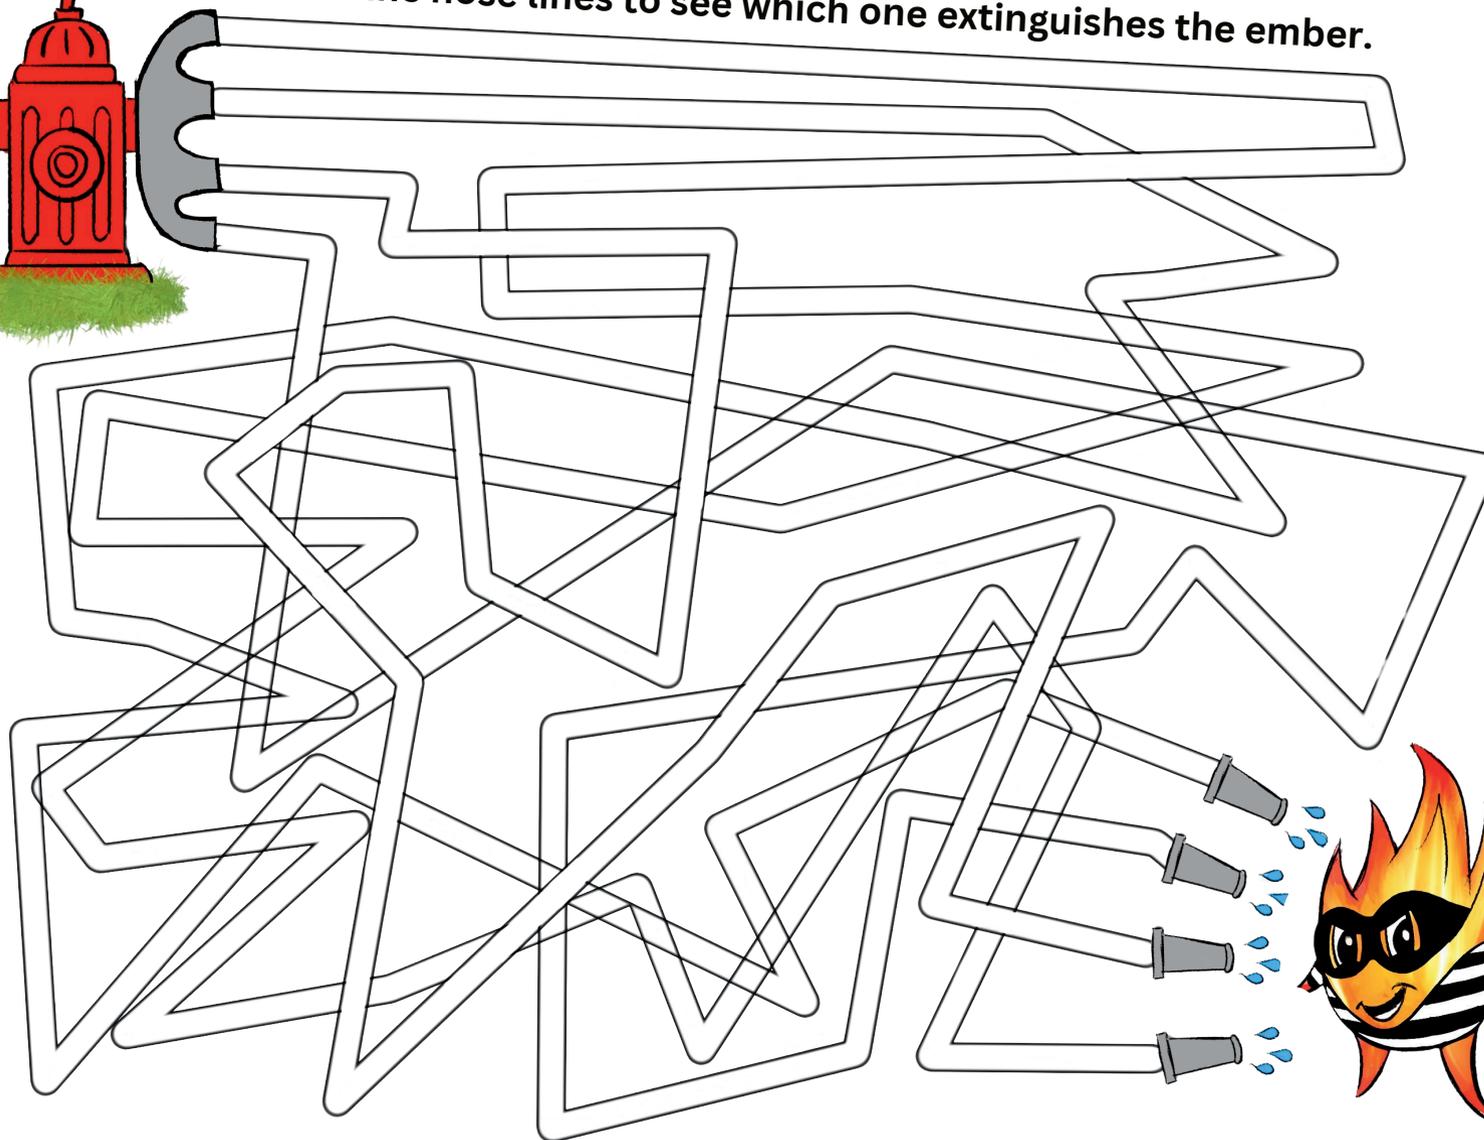

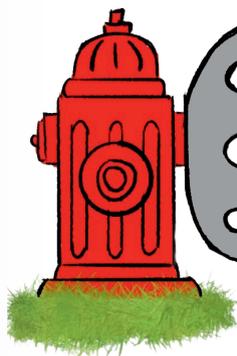

YOU'VE EARNED YOUR EMBER DEFENDER BADGE!

WHERE EMBERS LAND, MAKE A STAND!

Follow the hose lines to see which one extinguishes the ember.

READY, SET, GO!
